## DETAILED ACTION

### *Election/Restrictions*

1. Claims 9-12 and 16-38 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on October 18, 2004.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 3, 5-8 and 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Paquin (U.S. 3,413,820). Paquin teaches a food container, shown in figure 2, having a shell 20 with an inner portion 21 and outer portion 22. The chamber is shown at lead line 23. The opening is element 33. The shell is shaped at rim 32 to form an expansion chamber. When in the filling, storing and freezing position of the shell, which is shown in figure 6 and discussed in col. 2 lines 57-59, the opening is facing upward and is located below the expansion zone.

### *Response to Arguments*

4. Applicant's arguments filed March 4, 2005 have been fully considered but they are not persuasive. Applicant argues that Paquin does not teach an "expansion zone". The examiner disagrees with this position. Paquin clearly shows an expansion zone (the hollow area in figure 2) and discloses an expansion zone in col. 2 lines 53-59. Specifically, Paquin teaches that space is provided to accommodate

expansion of the refrigerant. This meets the claimed limitation that the shell defines an expansion zone, to the degree set forth in the claims.

5. Just as set forth in the present claims, the opening of the Paquin device is located below the expansion zone when the opening is facing upward.

### *Conclusion*

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

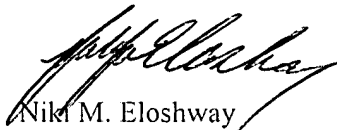

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
